

Test and Tune Day For Pinewood Derby 2012

Saturday March 3rd

1:00pm - 5:00pm

**First United Methodist Church
100 W. Cossitt Ave, LaGrange**

New This Year!!!!

Did you ever want the chance to see if your car was going to make it down the track before the race? Well dads, now you can. We are setting up the aluminum race track the DAY BEFORE the race so you can test and tune those race cars!

Come anytime between 1 and 5pm on Saturday the 3rd and run your cars. This is NOT a pre-race! We will not allow head to head racing competition, this is an opportunity for you to run your car and make whatever adjustments are necessary to go as fast as possible.

We will have a small set of tools for making adjustments, and can offer advice on how to get the most out of your car! Please do not come with a raw kit and expect to build your car that day! This is a chance to rest easy that on race day the car will cross the finish line!

Happy Racing! We hope you take advantage of this great opportunity.

*Make a memory to last a
lifetime*
